

Please accept this letter as my petition to stop FM translator services from being replaced by LPFM stations. I listen to two Christian radio stations that both have translators to get the station into other areas. Both stations are very beneficial to me and I would hate it if others did not have the same opportunity to listen that I do. These stations (Air 1 & KVNE 89.5) These stations provide encouragement and spread God's love in the communities they serve. If they were to be replaced many would not have the opportunity to hear Christian music, announcements and bible readings. I believe their services are so important to your communities in that they remind us daily how we should live. Thank you for your consideration.
